

ScaleS-PPM - Task # 221

Status:	Assigned	Priority:	Normal
Author:	Joerg Behrens	Category:	
Created:	12/08/2010	Assignee:	Joerg Behrens
Updated:	07/19/2011	Due date:	
Subject:	Ongoing documentation about technical aspects of the PPM-decompositions		
Description	Documentation about technical aspects that might be of interest to others.		

History

#1 - 12/08/2010 04:40 pm - Joerg Behrens

Rationale behind the choice of decomposition methods: [[Hierarchical decomposition]]

#2 - 07/19/2011 05:14 pm - Joerg Behrens

PPM uses UniTrans and therefore working on PPM means learning UniTrans. I therefore started to write a small workflow documentation about using UniTrans which should grow into a tutorial.

[[scales:UniTrans_workflow|Unitrans workflow]]
