

ScalES-PPM - Bug # 345

Status:	New	Priority:	Normal
Author:	Matthew Krupcale	Category:	
Created:	09/25/2017	Assignee:	
Updated:	09/25/2017	Due date:	
Subject:	No rule to make target 'dist_array.f90' when building HTML documentation		
Description			
<p>After configuring the project and running</p> <pre>make -C doc/unitdoc html-local</pre> <p>from the top build directory to build the HTML documentation, make fails with the following error:</p> <pre>make[1]: *** No rule to make target 'dist_array.f90'. Stop.</pre> <p>This appears to be due to doc/unitdoc/Makefile.am attempting to build src/ppm/dist_array.f90 using the wrong target: from src, it attempts to build the target dist_array.f90, but it should be ppm/dist_array.f90 as defined in src/Makefile.am.</p> <p>The attached patch fixes this issue.</p>
